

CLAIRE M REMINGTON

+1 778-535-4249 • claireremington@gmail.com • [@cmrems](#) • www.claireremington.com

EDUCATION

Reed College

BA Chemistry, GPA 3.43

Portland, OR, USA

September 2007-May 2011

University of Victoria

MASc Civil Engineering

Victoria, BC, Canada

January 2018-December 2019

HONORS AND AWARDS

Mitacs Accelerate Internship

January 2018-May 2019

EXPERIENCE

Sustainable Organic Integrated Livelihoods (SOIL)

Sanitation Technical Advisor

Cap-Haitien, Haiti

January 2015-December 2017

Advise business and strategy development for SOIL's urban household and commercial ecological sanitation services via field research, economic analysis, and regular presentations.

Blue Hill Partners

Project Development Analyst

Philadelphia, PA, USA

June 2013-December 2015

Developed financial and operational models for energy efficiency retrofit investments, managed utility rebate applications, and performed initial project site visits and qualifications.

Worldwatch Institute

Climate & Energy Researcher

Washington, DC, USA

February 2013-May 2013

Researched distributed [solar portable lamp business models](#) in Kenya to 1) compile a database of operating SPL companies' business models, 2) [identify institutional voids in Kenya's emerging markets](#), and 3) publish findings on Worldwatch's ReVolt blog.

Let Us Compost

Pick-Up Expert

Athens, GA, USA

September 2012-January 2013

Played an integral role in the operations and start-up of a [curbside food scrap pickup and composting service](#).

Sustainable Northwest

Thermal Energy Researcher

Portland, OR, USA

December 2011-June 2012

Constructed thermal energy baseline to describe renewable and non-renewable energy sources in Oregon and estimate total thermal energy load.
